## Summary

Hi,

I was born in september 1989. I have been doing graphic and web design since 2010. My interest with drawing and arts began when i was little and I have continued this interest in all aspects of my life.

I have done many web designs, corporate identity works, box designs, sticker designs, catalogue designs and outdoor designs for a variety of customers.

I designed the film poster and web site for the film KAR - SNOW, which received a Golden Orange award for best script in 2016 and 3 Golden Boll awards in 2017 .

Aside from my work as a designer, i enjoy reading detective and mystery novels, traveling, photography and playing guitar and piano.

Thanks in advance for your consideration!
